

As a part of the Beaches area for over 50 years, San Pablo serves as a beacon embracing both tradition and new endeavors that promote a culture of well-being within the community that surrounds us.

Sand Dune Renourishment

Experiential learning with a focus on sustainability is the primary goal of our science enrichment demonstrated as our fifth graders work cooperatively to plant, monitor, and care for the sea oats along our coastline.

Swim America

With the ocean just a few blocks away, our students receive swimming instruction promoting both healthy lifestyles as well as water safety. Students are engaged in learning proper swim strokes and various safe swimming techniques.

After School Clubs

Every quarter of the school year offers a variety of clubs for students to experience.

Arts and Sciences:

Bach2Rock, Engineering for Kids, Gardening, LEGO League, Music/Chorus, Robotics, Jr. Sea Turtle Patrol and Environmental Club, Visual Arts

Fitness Clubs:

Dance, Flag Football, Girls on the Run, Golf, , Martial Arts, Running Club, Soccer, Tumbling, Yoga

801 18th Avenue N
Jacksonville Beach, FL 32250

904-247-5947

We are a green school!

All of our teachers are on Classtag, a convenient website that allows parents to message teachers, set up conferences, and keep up with every day activities and events!

**San Pablo
Elementary**
*Academic Enrichment
through Science*

**“A” school for 22 years!
Green Champion School**

In Kindergarten, we are furthering children's social, emotional, and academic development while introducing the rituals and routines of school.

- *Royal Ball**
- *Friendsgiving**
- *Community Helpers Transportation Day**

First Grade is all about developing the love of reading and creating lifelong learners.

- *Fall Frenzy Non-Fiction Study**
- *Batty About Books**
- *Jan Brett Author Study**
- *Love to Read Week**

Second graders make the transition from learning to read to reading to learn and become confident in their abilities!

- *Study lifecycles by growing butterflies and releasing them in the butterfly garden that is maintained by the students**

Third grade's rigorous curriculum builds student self-assurance and stamina to become more independent, successful thinkers.

- *Recycle Tour**
- *Beach Clean-Up**
- *Nature Tours**

Fourth grade sharpens your child's writing skills, and brings amazing novels with relatable characters to life!

- *Wax Museum models project based learning while emphasizing the importance of reliable resources**

Fifth grade students develop ownership of their learning in order to successfully transition into middle school.

- *Sand Dune renourishment project with Fletcher High School's Coastal Science Club**
